# Blue Room News

Ms. Courtney & Ms. Katelyn

Newsletter May 2024

## This month at school

Welcome to **Blue Room!** This month's theme is Our Growing Minds.

For the **first** week of May, the letter of the week will be Ff. This week we are going to explore the world of gardening. For art we will be using different kinds of fruit and stamping it onto a paper for fruit stamping. For science we will melt ice cubes that have different kinds of flowers inside. Math this week will consist of different shape matching and counting seeds.

The **second** week of May, the letter of the week will be Gg. This week we are going to be learning about Mother's Day and our extended family. We will be making our wonderful moms a surprise Mother's Day gift. We will also be discussing the word love and what it means to us. For science the children will be melting ice hearts in the sensory table. For math the children are going to identify colors and match the different hearts. For literacy the children will be given a sensory bag full of red shaving cream and will write different letters on it.

For the **third** week, the letter of the week will be Hh. We will be continuing to talk about gardening and all the many things that can come out of it. For literacy the children will be planting popsicle sticks with different letters in soil. For math the children will be given different colored flower pictures and match the correct colored flower to it. For science the children will dissect different seeds inside fruits and vegetables identifying the difference in texture. In the sensory bin the children will get to explore with beans, play food, and bowls.

For the **fourth** week in May, the letter of the week will be Ii. The children are going to learn about a farmers' market. For math the children will be given fake money and count how much money they have. They will then use that money to go shopping for different fruits and vegetables around the classroom. For Art the children will be making a fruit basket. They will start by picking out their favorite fruit and vegetables and gluing it onto a basket. For science the children will get to taste the many different flavors of fruit.

For the **fifth** and final week we are learning all about bugs. We will be learning about caterpillars, ladybugs, bees, and flies. For math the children will be getting to differentiate the various sizes of bugs such as little and big. For science the children will be getting play dough and different bugs and stamp them into the play dough.

### Upcoming Events
