

## YELLOW ROOM

## MAY NEWSLETTER

MS. SHANNON AND MS. DIANA

Welcome to May in Yellow Room! We have so many fun activities planned for the kiddos this month!

The first week of May will be focused on families! Monday, we will talk about grandparents and do a grandparent color by number at the math center! Tuesday will be for the parents with a parent pretend play activity at science. Wednesday will be all about siblings. Thursday, we will talk about which family members live in our houses and Friday, we will talk about the ones that don't.

Week two is Mother's Day week! Monday, we will be focusing on our Mother's Day song and gift. Tuesday will be about how Grandma's are mommies too! Wednesday, we will focus on what mommies do for us and how we can be helpers to our moms. Thursday, we will talk about why we love our mommies and all the different ways they make us happy. Friday will be about gifts with a gift wrapping activity at science!

The third week of may will be about bugs and insects! Monday, we will learn about fireflies and make a firefly sun catcher at art! Tuesday will be about worms with math activity where we count out worms for Shimmer to eat. Wednesday, we will talk about what makes bugs insects. Thursday, we will learn about spiders and Friday, we will learn about ladybugs!

Week four is going to be garden themed! On Monday, we will be talking about flowers and children will learn the parts of a flower at science! Tuesday will be centered around bugs in the garden. Wednesday, we will learn about grass with a grass cutting activity at math. Thursday, we will learn about dirt and trace letters in the dirt at literacy. Friday, we will learn about fruit in gardens with an art activity where we stamp limes on our paper,

Week 5 will be about grocery stores and farmer's markets! Starting off with produce on Tuesday! Wednesday will be about farms and where our food comes from. Thursday we will talk about Farmer's Markets and make our own market stand at art. Friday, we will focus on grocery stores and pretend to shop for food and pay for it by counting out money at math.
